

We are pleased to announce that Mr. Scott Torgusson has joined PSS as Director of Technical Services (Asia Pacific). Scott has more than 35 years of experience with rotating equipment and is a well-known professional in the API pumps service and retrofit business in Asia. Previously he was the General Manager for ITT and was instrumental in developing their service business profile in Thailand and South East Asia.

In this new assignment, Scott will revamp the entire Service portfolio of PSS by adding several new capabilities including API pump hydraulic rerates, rotating equipment performance improvements, parts supply capability, machining capability, and welding repair capability.

Scott's arrival in PSS marks a major milestone in PSS's strategy to work with customers on energy savings solutions and asset optimization with rotating equipment at all our major customers in Thailand. We hope to serve our customers in Thailand and South East Asia by adding value to this very critical part of their operations.
